#### Description

I've just updated to version 0.1.7-rc1 and started getting an unknown certificate error while connecting to the jabber server.

I get a message box with the title "Accept Unknown Certificate?" and the message following text:

Trust anchor for certification path not found.

CN=jabster.pl

(OID.1.2.840.113549.1.9.1=#1612737570706F7274406361636572742E6F762, CN=CA Cert Signing Authority,OU=http://www.cacert.org, O=Root CA)

- Status changed from New to Resolved

- Target version set to 0.1.7

Not a bug.

The Cacert root certificate authorities are not trusted by Android.
